[GitHub](#) | [LinkedIn](#) | [My portfolio](#)

I am a Full-Stack Web Developer and Computer Science university graduate at Strathmore University with a strong experience with multiple programming languages required for building websites, web applications and database development.

EXPERIENCE

4th February 2019 – 15th March 2019 **Volunteer, CHILDREN WELFARE SOCIETY**

This is a children's home where I started as part of the catering team and later moved to teaching the children in the lower classes. Engaged well with the children while encouraging them all the time.

18th February 2021 – 3rd May 2021 **Internships, UTAWALA APPLIED RESEARCH INSTITUTE**

Collaborated on various stages of software development lifecycle from requirement gathering to implementation. I worked on UI/UX design, front-end and back-end web development on various projects in the organization.

Stack: HTML, TailwindCSS, JavaScript, MySQL, Laravel.

11th June 2021 – 3rd July 2021 **Volunteer, KIDS CAN CODE PROGRAM**

This is a program pioneered by @iLabAfrica in partnership with the Ministry of Foreign Affairs of Norway the Royal Norwegian Embassy in Kenya. It focuses on creating coding clubs in schools to help kids aged 10 - 17 years to learn Computer Science concepts and become active contributors to the digital economy.

The areas that I trained/taught high school students and teachers were Web Design and Development (HTML, JS, CSS, PHP), Database Design (MySQL), and App Development.

PROJECTS

BikerWorldKenya, <https://bikerworldkenya.co.ke>

This is an e-commerce site where motorcycle riders can personally sell their bikes, motorcycle gear and motorcycle parts.

It is also a platform that motorcycle dealerships, garages and schools can advertise their products and services. (Php Project)

Mtihani Management System, <http://mtihani-management-system.herokuapp.com/>

This is an exam management system that enables the users to store exam records and send exam results to specific parents using bulk SMS API from Africa's Talking. (Laravel Project)

Remote Farming Management App, [GitHub repository](#)

This is a web app that allows urban residents with farms in rural areas to hire staff from the rural area and

manage farm progress through the app. It has also integrated payment through Stripe API where farmers can buy products from the shop in the app. (Laravel Project)

My Portfolio,

<https://benard-njoroge.netlify.app/>

This is my personal portfolio where you get to know me better and see more of the projects that I have made and designed. (HTML, SASS, JS)

EDUCATION

April 2018 to date
Bachelor of Informatics and Computer Science, Strathmore University

Currently finished my degree in computer science.

2013 TO 2016
Utumishi Boys Academy

Kenya Certificate Secondary Education, grade B-.
Extracurricular activities.

- Clubs: IT, Band/Music
- Sports: Lawn Tennis, Football

SKILLS

Programming Languages

- Html5
- Css3
- JavaScript
- Php
- Python
- C++

- SQL
- Mongo DB

Frameworks and Libraries

- Laravel
- Node.js
- Express
- Vue.js
- Sass
- TailwindCss
- Bootstrap

Tools and Platforms

- Git
- Vs Code
- Netlify
- Heroku
- Firebase
- Figma

OTHER SKILLS

Strengths

- Fast Learner
- Good Communicator
- Great Team Worker
- Critical Thinker
- Consistent
- Great Problem Solver

ACTIVITIES

Enjoy coding, drawing, calisthenics, and motorcycle riding.

REFEREES

Gikera, James Njihia

Mentor

Strathmore University
